ChemGRC Seminar Series – Spring 2014

The ChemGRC Seminar Series aims to provide graduate students the opportunity to present their own new and exciting research without the added pressures associated with formal presentations. The ability to communicate science in a public setting is an invaluable asset for all scientists, so it is our goal to help develop this skill in all IU Chemistry students. In addition, these public presentations may act as a springboard for interdepartmental collaborations among graduate students.

The Seminar Series is a great opportunity for ALL graduate students at various stages in their academic careers. If you are interested, please fill out the attached form. Talks will be scheduled on a first come/first serve basis and are reserved for graduate students only.

Talks will be limited to 30 minutes (25 + 5 for questions) and will be held in C033 on Wednesdays from 4-5 PM. Popcorn and refreshments will be provided.

If you would prefer a different date than those listed below, please let us know, and we will work to fit your schedule.

Application:

1. Name: ____________________________

2. E-mail: ____________________________

3. Year in Graduate Program: ____________________________

4. Ph.D. Advisor: ____________________________

5. Previous Degrees (where/what/when, optional) ______________

6. Preferred Seminar Date (2/5, 3/5, 4/2): ______________

7. Seminar Title: ____________________________

8. Provide an abstract (200 word max) AND related figure describing your research.

All application materials can be submitted in electronic form to ChemGRC (chemgrc@indiana.edu). The applicant will be informed via email of their scheduled seminar date once they are selected.
